Electric Bollard in Stainless Steel

Electric Bollard Control Panel  
with Remote

## OKAL ELECTRIC BOLLARDS

They are available in 3 different sizes.  
All bollards are fitted with LED lights as standard but can be removed if not required.

### "MICRO" ELECTRIC BOLLARD

This bollard is available 2 different sizes **600mm** and **800mm** (distance out of ground). The bollard is manufactured from **114.3 OD x 8.8 mm** wall tube. The casing is a fabricated and then hot dipped galvanized. The bollard can be made from stainless steel. Powder coated steel or stainless composite.

### "MINI" ELECTRIC BOLLARD

This bollard can be manufactured in any size up to **1000mm** but the standard size is **900mm**. The bollard is manufactured from **168.00 OD x 10.97mm** wall tube. The casing is fabricated and hot dipped galvanized. The bollard can be made from stainless steel, powder coated steel or stainless composite.

### "MAXI" ELECTRIC BOLLARD

This bollard can be manufactured in any size up to **1000mm** but the standard size is **900mm**. The bollard is manufactured from **219.10 OD x 12.70mm** wall tube. The casing is fabricated and hot dipped galvanized. The bollard can be made from stainless steel, powder coated steel or stainless composite.

The basic control panel consists of either UP/DOWN buttons or 2 off remotes.

A standard feature of the Electric Bollard control is that a battery backup System is standard. This allows operation of the bollards when the power as failed.
